

PRODUCT DATA SHEET – MHO

Section 1. PRODUCT DESCRIPTION

“MOLLY” STEEL ANCHOR WITH EYE HOOK – MHO

Steel anchor with eye hook MHO is made of steel with zinc chromate coating. It is used for medium duty fixing of interior finish products in plasterboards and chipboards. After being fixed, collapsing arms form a large support surface on the reverse side of the plasterboard. Sharp flange barbs prevent the rotation of anchor shell during fixing which, ensures correct installation.

Types of substrates on which anchor MHO can be installed:

- Plasterboard
- Chipboard

Section 2. METHOD OF INSTALLATION

1. Original anchors delivered by the manufacturer can be used only
2. Before installation identify a substrate in which the anchor will be installed and compare loads which the anchor will carry to the resistance values
3. Select adequate anchor length, depending on sum of thickness values of members being fixed
4. Holes in plasterboard should be drilled using drilling bits for timber or steel in order not to damage structure of the board
5. Diameter of drilled holes should match diameter of the anchors used

Section 3. TECHNICAL DATA

Product code	RESISTANCE			
	Characteristic/design resistance in 9.5 mm plasterboard	Characteristic/design resistance in 12.5 mm plasterboard	Characteristic/design resistance in 10 mm chipboard	Resistance of hook
	[kN]	[kN]	[kN]	[kN]
MHO-M4	0,37/0,17	0,40/0,18	0,62/0,28	0,55

SELECTION TABLE					
Product code	Fastener diameter and length	Hole diameter	Shank length	Drywall thickness range	Number of pieces in a box
	d_w x L_w [mm]	d_o [mm]	L_k [mm]	d_p [mm]	[pcs]
MHO-04032	M4 x 38	9	32	6-12	100
